Continuity in Action Webinar

FEMA National Continuity Program (NCP) is host a webinar to highlight implementation of continuity strategies during disasters. The Fall 2022 Continuity in Action Webinar will focus on the continuity of cyber capabilities during interruptions of services.

Join us on Thursday, September 22, 2022, at 1:30 p.m. ET for a one-hour discussion on continuity strategies and implementation. The webinar will include a question-and-answer period with the speaker panel. Because we are in hurricane season, there is a backup date for the webinar: on October 6, 2022 at 1:30 p.m. ET.

To register for the webinar, visit FEMA’s Eventbrite webpage.

Contact Us

The webinar will be recorded for future viewing. However, we encourage your live attendance to maximize the time for questions and answers with the presenters.

Visit FEMA’s Continuity Resource Toolkit for additional information and resources for continuity. For Questions, contact the Policy and Plans Branch at fema-continuity-policy@fema.dhs.gov with questions regarding the webinar. Captioning services will be provided for the webinar.
